

*Respect the fence.  
It's there for a good reason.*

Wherever Encana operates, we take great care to respect the safety of our neighbors. We'd like to ask you to do the same. Please respect the fences around the production equipment. They are there to help you keep a safe distance from potential hazards. If you have questions about a natural gas facility near you, get in touch with Encana at **866.896.6371**.
