Purpose

The purpose of establishing Internet Standards and Guidelines is to provide an environment where best practices and uniform procedures will be followed by Town of Erie employees related to the creation and maintenance of content on the Town's Internet Site. These standards encompass all activities associated with building, using, and maintaining this Web site.

The Town of Erie Internet Standards and Guidelines will be created by the Communications and Information Services Division staff and approved by the Town Administrator. Once approved by the Town Administrator, the standards and guidelines will be posted on the Town's Internet Site.

Administration of Standards

The Communications and Information Services Division staff will monitor compliance and make necessary changes to the standards. The standards will be distributed to all employees with responsibility for Internet Site maintenance and these individuals are expected to follow the standards. All new content will be expected to meet the standards. Existing content will be expected to meet the standards as they are updated, modified, or replaced.

Privacy Statement

The purpose of the statement is to inform users of this site with regard to the collection and use of personally identifiable information. For the purposes of this statement "personally identifiable information" means any information relating to an identified or identifiable individual who is the subject of the information.

Residents do not have to provide personal information to visit the Town of Erie's Portal to read, download or print information. Government agencies may request personally identifiable information from you in order to provide specific services that you request. Any information collected for that purpose would be only that which is necessary to provide those services and will be handled, as it would be on an in-person visit to a government office.

In order to provide new services, design a more customer friendly site and facilitate access to it, the Town of Erie uses statistical analysis of traffic on the site. Information that is not personally identifiable such as IP (Internet Protocol) numbers, browser types and versions are collected and used for this purpose. The site does not attempt to associate this data with information that is personally identifiable.

Public Disclosure

As a governmental agency, we are governed by open records laws. Any information that we receive through use of our site is subject to the same provisions as information provided on paper. Otherwise, we do not share personal identifying information with any third party without your permission. We disclose only in aggregate form our statistical analyses or demographics of users to third parties.

This information is not reported or used in any manner that would reveal personally identifiable information, and will not be released to any outside parties unless we are legally required to do so in connection with law enforcement investigations or other legal proceedings.

Content Pushing

Content pushing is the automatic delivery of applications and information to users and includes the use of broadcast e-mail (i.e., Erie News Updates, Board of Trustees Action Items, Media Releases, etc...). Such services will be provided only with the prior authorization of the citizen. Citizens will be able to remove themselves from that service at any time via the World Wide Web. Choosing one service does not constitute choosing all services. When choosing a service, the citizen will be informed of exactly what service they are requesting, what information is required in order to provide that service, and how to subsequently remove themselves from that service should they choose to do so.

The content of all broadcast e-mail shall be subject the requirements and limitations of the Town of Erie Internet Standards and Guidelines.

Erie Government Television

The Town of Erie's Local Government Access Channel, Comcast Channel 8, is transmitted via the internet on the Town's website www.erieco.gov. Erie Government Television programming is subject to the limitations of [Channel 8 Mission Statement and Guidelines](#).

Use of Constituent E-Mail Addresses

E-mail addresses obtained as a result of a request to the Town's Internet Site will not be sold or given to other private companies for marketing purposes. E-mail or other information requests sent to the Town's Internet Site may be maintained in order to respond to the request or to forward the request to the appropriate department. Individuals may be able to receive updates on issues important to them, but only if they choose to "opt-in" to that specific service. By "opting-in" to one such service they do not "opt-in" to other services. Should they subsequently choose not to receive such informational updates via e-mail they can remove themselves at any time.
