

Update from Synergy Resources Corporation

Posted: 11-13-2015

The Town of Erie has been notified by Synergy Resources Corporation that the process to plug and abandon the Pratt 29-3 well has taken longer than expected due to weather delays. This operation will continue during daylight only and should be complete by Tuesday, November 17, 2015.

This well is located north and west of the intersection of Weld County Road 5 and Weld County Road 4.

Please direct questions to Terry Dewey, Production Superintendent, or Brianne Visconti, Operations Administrator at 970-515-7535.
